

Because you deserve it

With over 25 years of experience Aaben continues to be one of Kingston's leading retailers and installers of the finest windows and doors available in North America.

We know that our success is directly related to our customers' happiness. We have worked hard within our community to establish an impressive track record of satisfied customers by offering them outstanding products, installation and customer service at competitive prices.

A Different Renovation Experience

Right from the start you will notice that dealing with Aaben is unlike many other home renovation experiences.

Our highly trained sales people are non-commissioned. They will help you find the right solution to your project and offer options that will work within a range of budgets.

At Aaben, we take a team approach — all of our team members are available to help answer your questions at any stage of the project. We only deal with the finest manufacturers and we stand behind each and every product we offer.

Whether it's a home renovation, a new construction or a large commercial project, Aaben can help make it a surprisingly easy experience!

Unique Industry Approach

Even the most well-engineered window won't perform effectively if it has been improperly installed.

That is why our carpenters are our own long time employees whose expertise in their field is matched only by their attention to detail.

Unlike most of our competition, we never subcontract our installations.

We know it takes time to do the job right so our installers take the time they need to complete everything to your satisfaction. They are paid by the hour, not the job. They use quality materials and never cut corners to save money.

They also take great care to meticulously clean up after the installation so all you need to do is start enjoying your new windows or doors.

Unparalleled Level of Service

Aaben offers amazing service on every level of your project...our employees are all knowledgeable, experienced, and fully insured; both our products and installations have great warranties; and we are committed to providing outstanding after sales service.

Our clients know that we offer solutions for a range of budgets and that everyone gets the same outstanding products, installation and customer service for which Aaben is famous.
